

# Mid-Western, LLC

## MWS83S Sinker Drill

### Proven Design

- The most dependable heavy sinker drill on the market
- OEM of the S83 line of pneumatic drills
- Precision manufactured parts that run better and wear down slower
- Backed by over 65 years of American-made experience

### Versatility

- Available in either a 7/8" or 1" chuck size
- Sold as either wet or dry (with or without water)
- Can easily be converted to a Jack Leg drill
- Great for drilling sniffer holes for utility companies
- Great for quarries and construction projects

### Affordability

- Mid-Western drills are high quality and competitively priced
- In-house manufactured parts last longer and perform better
